DETAILED ACTION

1. This action is in response to applicant's supplemental amendment received on December 5th, 2007.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-9, 11, and 13-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Modrey (2,776,385) for the same reasons set forth in paragraph 4 of the Final Rejection mailed December 6th, 2007.

Regarding the amendment to claim 1, note that the additional casing (previously designated in the Final Rejection, *supra*) is located between the cooling conduit (in the vicinity of 15) and the housing 13.

Regarding new claim 18, note that the additional casing (designated in the Final Rejection, *supra*) is formed as an extension of the intake nozzle (in the vicinity of 32) as can be seen in Fig. 1. The extension is along the longitudinal axis as designated in the Final Rejection, *supra*.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 10 is rejected under 35 U.S.C. 103(a) as being unpatentable over Modrey (2,776,385) and Admitted Prior Art for the same reasons set forth in paragraph 6 of the Final Rejection, *supra*.

Response to Arguments

6. Applicant's arguments have been fully considered and are believed to have been addressed above.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

8. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
